Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Arakawa (USPN 4,636,658).

With respect to claims 1-11 and 16-18, Arakawa discloses, in Fig. 5, a circuit comprising: “a first transistor (C_1)”; and “a second transistor (C_2)”, all connected and operating similarly as recited by Applicant. The reference to Arakawa expressly states that there is a predetermined ratio between the capacitances C_1 and C_2 , which is established due to the difference between the “gate electrode areas” (e.g., see Col. 5, lines 50-54).

With respect to claims 12-15, 19 and 20 are, clearly the above circuit to Arakawa will provide the recited method. In addition to the above discussion, the reference to Arakawa expressly provides an example of the ratio being 1 (i.e., the “gate electrodes areas are equal”). Reference is made to Col. 4, lines 7-22.

Examiner has fully considered Applicant's remarks for the above rejection and has not found them to be persuasive. The Applicant does not discuss any specific claim language purported to be lacking in the applied reference. Applicant further remarks that the “Arakawa patent is silent with respect to creation of a voltage divider using tunneling elements”. However, this discussed feature is not recited in the rejected claims. Although the claims are interpreted in

light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Terry Cunningham whose telephone number is 571-272-1742. The examiner can normally be reached on Monday-Thursday from 7:30 to 6:00.
